

The Centre for Marine CNG Inc. is a consulting, commercialization and research corporation, based in St. John's, Newfoundland & Labrador. The purpose of the Centre is to advance new and innovative technologies for the safe and efficient usage, transportation, handling and storage of marine compressed natural gas (CNG) primarily, and other natural gas monetization technologies. Our growing worldwide membership includes oil & gas, shipping and technology companies, as well as institutions, class societies and government.

We are a team of energetic individuals driven by a desire to succeed. The work environment is founded on a spirit of cooperation and supported by people who are not limited by their job descriptions.

We are looking for a skilled individual to become part of our team.

Mechanical Engineer or Marine Engineer or Naval Architect Full Time Position

This is a great entry level position for the successful candidate to become part of a growing organization. The candidate will complement a cohesive group of technical professionals involved in consulting, design, commercialization and research activities for domestic and international clients.

Reporting to the Operations Manager the applicant will be involved in oil, gas and shipping related project activities supporting our Member companies.

You would describe yourself as being a Project Engineer/Naval Architect currently or previously employed in the energy or shipping industries with the following attributes:

- Background in mechanical, marine or naval engineering;
- Minimum of 3-5 years of experience;
- Familiarity with oil & gas project economics, marine systems, document preparation;
- Excellent interpersonal and organizational skills;
- Willing and prepared to travel; and
- Eligible for registration with Professional Engineers and Geoscientists of Newfoundland & Labrador.

**Applications should be forwarded to:
Heidi Skinner, Business Coordinator
Centre for Marine CNG Inc., P.O. Box 3, St. John's, NL, A1C 5H5**

**Applications are due before January 31st, 2008
Only those selected for an interview will be contacted.**
